

SENIOR ENGINEER

Okotoks is ... a dynamic, fast growing community of 26,000+ located 15 minutes south of Calgary. We have been recognized for our innovation and commitment to sustainable development practices. As an employer the Town prides itself in being a learning organization striving to provide the best service in the most efficient, effective and economical manner. As an organization we are results oriented, value risk-taking and innovation, and consider teamwork an important component of our future success. With the removal of the population cap, strategic annexation is a major part of Engineering Services focus moving forward. We offer a new opportunity for the independent free-thinker ...

If You Desire ... a workplace that values teamwork, creativity and innovation, is a casual, yet fast-paced and results oriented environment, with flexible work schedules, you will be interested in a new employment opportunity in Engineering Services ...

Your primary responsibilities are ... providing professional expertise to ensure best practices and Town standards are enforced; coordinating projects and services for both internal and external clients, and review and approval of infrastructure related to new development and subdivision applications in accordance with policies, specifications, provincial regulations and accepted engineering standards.

We're looking for... an innovative, highly organized team player with a proven track record in the engineering field. To ensure your success in this role, you have a degree in Civil Engineering, possession of Professional Engineer designation, plus 8 years relevant civil engineering experience in progressively responsible roles. Other necessary attributes are excellent knowledge of current engineering and construction standards; exceptional project management skills, excellent interpersonal, communication and negotiating skills, above average time management and priority setting ability. Possession of a valid Alberta Class 5 Driver's license is required.

Interested applicants please provide detailed resumes, along with copies of credentials, by April 21st, 2014.
