

# Create the city of tomorrow, today.

The City of Surrey is a place of innovative transformation and accelerated growth—where the future is limitless and possibilities are endless. If you are excited about helping to build the city of tomorrow—and you share our values of integrity, service, teamwork, innovation and community—join us, today.

## Web & Mobile Application Developer

The City of Surrey is undergoing a digital transformation to provide improved online and mobile services to our visitors, citizens and business partners. We are looking to add to our team a talented Web & Mobile Application Developer to play a key role in that journey. The incumbent will add valuable skills and expertise to maintain and deliver solutions. Working in collaboration with a team of solutions managers, developers, business analysts, 3<sup>rd</sup> party vendors and business-side subject matter experts we are looking to add this key player to our team of passionate, knowledgeable, and innovative professionals. If you are interested in a career that offers challenge and growth, we encourage you to keep reading.

- Using your hands-on development expertise in .Net, Java, HTML5, CSS, Oracle PL/SQL, JSP, Javascript & Responsive frameworks, web API's, and iOS & Android native app development you will perform critical analysis and connect the dots to design, build and implement services that can be accessed from anywhere and on any device.
- You have a passion for delivery of simple, elegant and usable products that make it easy for our customers to use the City's services.
- You are someone that is always looking to expand your expertise and leverages that expertise to provide innovative solutions to benefit the organization's strategic goals.
- You work exceptionally well in a cross-functional team environment and willingly share your knowledge to benefit others.
- You are able to communicate to all levels of professionals from various backgrounds and perspectives.
- You excel working in a high-paced environment to meet demanding timelines.

To be considered you will have a one of the following qualifications:

- A Bachelor's degree in an acceptable related discipline from a discipline from a recognized post-secondary institution, plus 3 years of directly related and relevant experience.  
OR
- A Diploma in an acceptable related discipline from a recognized post-secondary institution, plus 5 years of directly related and relevant experience.  
OR
- Completion of technical courses in the field plus 7 years of directly related and relevant experience.
