

Employment Opportunity

Engineering Technician

Would you like to be an essential part of providing engineering technical support for water and sewer systems; undertaking design and planning and overseeing the construction of utility infrastructure projects? Are you ready to take on an exciting and challenging role by joining a high-performing team dedicated to providing high quality service to RDEK residents?

With solid technical experience you will play a key role in supporting water and sewer systems and monitoring, inspecting, maintaining and overseeing the construction of utility infrastructure.

Your Qualifications Include:

- Completion of a Civil Engineering Technology program with a diploma in Civil Engineering Technology and have at least five (5) years related experience;
- Thorough knowledge of engineering principles related to the design and construction of water, sanitary sewer, drainage and other utility systems;
- Strong grant and proposal writing skills;
- Excellent communication and strong interpersonal skills;
- Flexible, practical nature and creative problem solving abilities; and
- Ability to develop and maintain positive working relationships with both internal and external customers.

The RDEK offers a great work environment and an attractive total compensation package, which includes a competitive salary, excellent benefits, a modified work week and learning opportunities. This is a permanent, full-time (35 hours per week) Union position with a starting salary of \$5,104/month.

If you are interested in this position and meet the above criteria, we invite you to submit a resume and cover letter with references, prior to 4:30 pm on **Thursday, April 2, 2015**, via email and in confidence to:

Lori Engler, Human Resources Manager
