## SECURITY SPECIALIST

The Finance and Technology Department has a regular full-time opportunity for a Security Specialist in the Infrastructure and Operations section of Information Technology.

Under general supervision, the Security Specialist performs an advisory, educational, and maintenance function on the security configuration of IT systems across the enterprise in a team environment.

In this role you will:

- Conduct risk assessments of new technologies and system architectures.
- Proactively assesses potential items of risk and opportunities of vulnerability in the network.
- Conduct periodic security assessments and investigations in accordance with policy and procedure.
- Maintain existing PCI policies and standard Security procedures.
- Participate in the development of an annual Security awareness campaign
- Liaise with Management to ensure client needs are being met.
- Work with senior staff to design, build and implement Secure IT solutions.
- Participate in the development of security specific policies and standards.
- Work with project teams and internal IT stakeholders to design enterprise wide security solutions.

The successful applicant will possess one of the following combinations of education and experience:

- Diploma in a directly related field from a recognized institution plus 6 years of directly related experience
- Bachelor's degree in a directly related field from a recognized institution plus 4 years of directly related experience
- Technology courses in the field plus 8 years of directly related experience.

CISSP or relevant GIAC certification is considered an asset.
