

## POWER LINE TECHNICIAN

The Electric Utility Department of the City of Penticton is accepting applications from highly motivated, experienced and energetic individuals for the position of Journeyman Powerline Technician. The City of Penticton takes pride in the workmanship and operational stability of our Electrical Utility. As a smaller utility, we are able to be progressive in employing new technologies and tools.

Working for the City of Penticton means we raise families where others come for their vacation. Our home offers the best beaches, cycling trails, parks, recreation facilities and mountain escapes, not to mention all the shopping and amenities a vibrant community needs.

Why join us? You are looking for a career that makes a difference. We champion an innovative, thriving, sustainable community through visionary leadership, partnerships and service excellence.

- The successful applicant will have five or more recent years of experience in the construction and maintenance of energized urban and rural electrical distribution systems, both overhead and underground (12,470V phase to phase), along with civil experience (excavation/trench work – breaking concrete with jackhammers, rescue saws, etc. to install conduit).
- An Interprovincial Red Seal endorsement along with experience in Class 2 (or higher) rubber gloving is required.

The current wage rate is \$45.24 per hour, plus an attractive fringe benefit package and pension.

If you are interested in this challenging opportunity, please forward your resume by 4:00 pm, August 31, 2016 to:
