

## MY WORK CITY

### Traffic Technician Traffic Operations

#### Move your career in the right direction!

The City of Kelowna has an exciting opportunity within our Public Works Department as a Traffic Technician.

The ideal candidate holds a Civil Engineering Technology or Transportation Engineering Diploma to work collaboratively with other City departments, consultants, developers and external agencies to make our transportation network safe and efficient.

Within our Traffic Operations team, you will be a key contact on traffic issues. Some of your key responsibilities include road safety and operational assessments, roadway design review, traffic data analysis, policy and bylaw development, preparing designs and statutory records for traffic signs and road markings.

As a strong communicator, problem-solver and team builder, you will deliver excellent internal and external customer service.

This is a CUPE bargaining unit position offering a 5-step salary progression starting at \$35.50 per hour to \$40.85 per hour (based on a 40-hour work week) including a competitive benefits package. We offer career and professional development, and progressive employment practices. Contribute to our vision to be the best mid-sized city in North America!
