

MY WORK CITY

Wastewater Treatment Operator - Training Opportunity Wastewater Treatment Facility

Kelowna's sewer system collects, conveys, treats and disposes of domestic and industrial wastewater. The City's Wastewater Division is considered to be a provincial leader using new technology in the operation of our wastewater treatment systems.

In this training opportunity, you will learn to monitor and adjust treatment process, troubleshoot equipment and perform preventative and emergency maintenance/repairs. You will conduct lab work including basic sampling and testing of wastewater quality.

The ideal candidate will have an EOCP Wastewater Treatment - Level I Certification and related post-secondary education and working towards Level II. Knowledge of SCADA systems and process controls, operating and repairing systems including valves, pumps and systems are considered an asset. Lab experience with chemicals and sampling, testing and interpretation is preferred.

This is a CUPE bargaining unit position and offers \$29.17 to \$31.68 per hour based on a training plan. We offer career/professional development, progressive employment practices, a great work environment and a competitive benefits package which includes membership to a top Pension Plan in Canada.

Join the City of Kelowna to help us become the best mid-sized City in North America!

Apply online at kelowna.ca/careers by November 21, 2017.

Applicants not contacted within three weeks of the competition closing date are thanked for their interest.
