

Metro Vancouver – Join us in our commitment to provide services and solutions to one of the world's most liveable regions. We deliver service excellence in the areas of regional growth planning, air quality, water, liquid and solid waste management, regional parks, affordable housing, and community engagement to over 2.4 million residents. We invite you to bring your skills, passion, and expertise to help us in our commitment to sustain and enhance our region's liveability. We offer competitive salaries; excellent benefit packages; a municipal pension plan; employee wellness programs; and varied opportunities for professional growth and development. *Our Water Services Department is currently seeking a:*

Digital Control Software Specialist **(Full-Time Regular)**

You will support large regional water and wastewater SCADA and DCS systems. You will provide system maintenance and administration, hardware and software support, development of control system configuration, network management and advanced software applications through to system commissioning.

You have experience with computer operating systems (Windows 7, Server 2003 and Server 2008), software (C++, VB, Excel, SQL server) and control systems (DeltaV, Control Logix) and are familiar with linking control systems to business systems.

You have a 2-year diploma of technology in Automation and Control and 5 years' experience in the application, system design, modification and analysis of control systems in a plant or utility environment OR a Bachelor's degree in computer science, mathematics or a related field and 3 years' experience.

Please follow this link www.metrovancouver.org to our Careers page where you can submit your application by October 7, 2016.

While we greatly appreciate all the replies we receive, regretfully only those selected for an interview will be contacted.
