

ACTIVE TRANSPORTATION PROJECT COORDINATOR
Engineering & Public Works Department

(Temporary – up to 12 months)

The Engineering and Public Works department is responsible for managing nearly \$2 billion in built assets and infrastructure. This essential infrastructure delivers key services to the public, including water distribution, wastewater collection, garbage collection, transportation systems and public amenities.

A new opportunity exists for an experienced and highly motivated team player to join our team as Active Transportation Project Coordinator. In addition to being a natural leader and relationship builder, the ideal candidate is well-organized, customer service focused, and keen to work proactively to deliver high quality services. Drawing on demonstrated experience and exceptional communication skills, the successful candidate will bring fresh innovative ideas while working collaboratively with others.

A Project Management Professional designation and the registration or an ability to register as a Professional Engineer (PEng) with Associate of Professional Engineers and Geoscientists, British Columbia (APEG BC) will be considered an asset.

For a complete a job description, required qualifications, rate of pay, and how to apply, please visit our website at www.victoria.ca. This is a CUPE Local 50 position.

We thank all applicants; however only those selected for interview will be contacted.
