

CITIZENS FIRST THROUGH SERVICE EXCELLENCE

*We have an exciting **Full Time Non-Unionized** opportunity in the **Environmental Services Department** for an experienced and motivated individual*

**Project Manager – Water/Wastewater Hydraulics
(JOB # J0518-0498)**

As one of Southern Ontario's fastest growing cities, with its mix of urban and rural areas, Vaughan is an in-demand place to live and work. Vaughan is considered one of Canada's most family friendly cities with a dynamic and diverse population of over 300,000. With one of the top performing economies, a growing tourism industry and an enviable portfolio of recreational and cultural venues, this is the place where you want to be.

Responsible for managing projects related to the hydraulic analysis of the future and existing water, wastewater and stormwater systems. Liaises with planning and capital delivery to ensure hydraulics of water, wastewater and stormwater systems are maximized. Performs hydraulic condition assessment on water, wastewater and stormwater systems to inform capital project planning.

Qualifications and experience:

- University Degree in Engineering, Environmental Studies or equivalent.
- Professional Engineer designation with Professional Engineers Ontario.
- Minimum of five (5) years' direct experience in water/wastewater hydraulics and modelling analysis including experience supervising in a municipal unionized environment.
- Seven (7) years' in municipal/private consulting industry in water/wastewater hydraulics preferred.
- Certification as a Project Manager Professional (PMP) through the Project Management Institute is an asset.
- Demonstrated experience in water/wastewater modelling, long term service planning and problem solving.
- Skilled in leading effective project teams and developing collaborative internal and external business relationships.
- Comprehensive knowledge of the Safe Drinking Water Act, Ontario Water Resources Act and other related government, labour, employment and Human Rights Legislation.
- Exceptional interpersonal, organizational, and analytical skills; excellent oral and written communication skills on technical and non-technical matters, including effective report writing. Strong organizational, records management and time management skills.
- Excellent knowledge of municipal engineering industry standards, trends, emerging issues and applicable legislative requirements.
- Ability to deal courteously and effectively with the members of the public, staff, Members of Council, and consultants.
- Knowledge of, and demonstrated ability in, the city's core competencies and relevant functional competencies.
- Ability to self-manage, and identify issues, challenges, and opportunities and propose solutions.
- Demonstrated ability to work independently and collaboratively in a team environment.
- Possesses a valid Ontario Class 'G' driver's license in good standing with access to a reliable vehicle for corporate use.
- In depth knowledge in InfoWater and InfoWorks and stormwater modelling, and a strong knowledge of GIS applications.
- Ability to work outside regular business hours, as required.
- This role is performed in an office. From time to time the incumbent completes site visits.

In addition to offering a competitive compensation package, we have a strong focus on health and wellness, including fitness facilities and family-focused benefits.
