

It seems that most people who visit our town comment on how beautiful it is, it's amazing location (being just 15 minutes south of Calgary) and how friendly the people are. We're proud of our community, steadfast in our approach to sustainability, and have an empowered municipal workforce that reflects this pride. As one of Canada's fastest growing communities our challenges are unique and our dedication is equal to the task. Would you like to be an integral part of our empowered team? If so, read on ...

BUILDING MAINTENANCE TEAM LEADER

The Town is looking for a progressive, talented person to provide leadership and innovation for the team in keeping with the stated goals and values of sustainable Okotoks. You will be responsible for overall building management for Town owned buildings, ensuring prompt and efficient building repair, maintenance and life-cycling of 15 municipal buildings. A variety of repair and fabrication activities including carpentry, cement finishing, electrical, plumbing, heating, sheet metal work and design, and planning procedures are also your purview. You will also maintain a comprehensive building maintenance tracking and reporting system on all facilities and activities performed on each asset.

We require accreditation/certification in Building Facility maintenance or a trade (plumber, electrician, power engineer, millwright, building operator, boiler operator, etc.) plus at least 8 years experience relevant to supervising building maintenance functions and staff. A Facility Management Diploma is a definite asset. Possession of a valid Class 5 driver's license is required.

This position includes a comprehensive benefits package and participation in LAPP pension plan. Please visit www.okotoks.ca for more detailed information on this and other opportunities. Interested applicants please submit detailed resumes and copies of certifications by June 3rd 2013.

We thank all applicants for their interest, but only those selected for an interview will be contacted.
