

Production Millwright

Nelson Hydro - City of Nelson Competition #25NH57

Located within the traditional land of the Sinixt, Ktunaxa and Sylix peoples, Nelson is traditionally known for its beautiful setting, vast array of recreational activities, pristine parks and vibrant downtown. We are grateful for the opportunity to work on this land. It is a year-round playground for outdoor enthusiasts and those who love the arts, culture and small-town feel, with big-city amenities like high-quality schools, post-secondary institutions, regional health care, numerous golf courses and a competitive cost of living.

POSITION SUMMARY:

The Production Millwright at Nelson Hydro is responsible for the overall general maintenance and repair of hydro generators, turbines, switchgear, control systems, and other related equipment at our Bonnington Power Plant. This role involves performing necessary repairs, troubleshooting electrical and mechanical issues, and ensuring the efficient operation of the power plant, and substations. The Production Millwright will also be responsible for general housekeeping, snowplowing duties, and assisting with the inspection and maintenance of electrical systems.

ESSENTIAL QUALIFICATIONS:

- Trade qualification as a Journeyman Millwright/Machinist with inter-provincial red seal certificate
- Experienced in electric utility systems, equipment, apparatus and protective devices and their clearances and isolation procedures
- Familiarity with digital, electromechanical protective devices would be a benefit
- Level 1 First Aid
- Confined Space Training

COMPENSATION: \$53.94 (IBEW 1003)

HOURS: 8 hours per day

DAYS: Main work days will be Monday to Friday working eight (8) hour days. Production Millwrights will also participate on an on-call roster.

BENEFITS:

- Competitive pay
- Flexibility
- Professional development
- Be part of an innovative and reliable hydroelectric utility providing essential services to our community
