Position Title: Laboratory Assistant II

Position Status: Full-Time Regular

Department: Water Services

Employee Group: Teamsters Local 31

Location: Lake City Operations Centre, Burnaby

Salary Range/ Wage Rate: PG T17 \$2,317.83 - \$2,724.55 bi-weekly

Our Water Services Department is seeking a Laboratory Assistant II who will be responsible for collecting drinking water and source water samples throughout the Metro Vancouver region as part of a team of Water Samplers.

You are: a flexible team player with a good driving record and valid Class 5 BC Driver's Licence. You are able to comfortably and safely work independently in all weather conditions and find solutions to challenges that may arise in the field. You are available to work full shifts, Monday – Friday, from 6:30 AM to 2:30 PM. You have a background and education in sciences and are able to follow specific safety and sampling procedures.

This role:

- Collects drinking water and source water samples on a daily basis from a variety of stations throughout the Metro Vancouver region; visits sample sites according to schedule and aseptically fills pre-labeled bottles according to prescribed sampling routines; conducts in-field water quality testing, including chlorine, pH, and temperature; collects and/or delivers other samples as required.
- Drives a Metro Vancouver corporate vehicle throughout the Metro Vancouver region to the sample stations and locations in all weather and traffic conditions; accesses subsurface utility chambers and above-ground reservoir tanks to collect samples.
- Plans work schedules, modifies routes and sampling areas to accommodate staff absences, sampling projects and other temporary changes to the work of the unit as required.
- Uses and maintains a chlorine kit, pH meter, thermometer, and other equipment; calibrates same and takes and records related measures in the field; and delivers samples to the laboratory for analysis.
- Maintains records of chlorine residual and other meter readings, time samples taken, and temperature; enters related data into an iPhone app; follows a detailed field sampling operations manual.

- Delivers samples to Metro Vancouver laboratory to meet prescribed deadlines, makes periodic assigned trips to deliver samples to other laboratories, and prepares bottles, work sheets and other related items for collection trips.
- Maintains cleanliness and orderly arrangement of work sites, a corporate vehicle, and field equipment and supplies related to the work; performs routine calibration of field meters; performs work according to safe work procedures and standard operating procedures.
- May provide orientation to new or temporary staff as required.
- Performs related work as required.

To be successful, you have:

- Completion of Grade 12 with courses in science; related laboratory work experience would be an asset; or an equivalent combination of training and experience.
- Sound knowledge of various routines, schedules, procedures, apparatus and safety precautions related to the field sampling and collection of water samples throughout the G.V.W.D. system.
- Sound knowledge of the location of various G.V.W.D. sampling stations, sites and sampling points, of traffic routes in the Greater Vancouver area, and of the collection routes and schedules.
- Ability to use and calibrate specific fragile field test kits and equipment such as a dissolved oxygen meter and automatic sampler, and to exercise care in handling collection bottles and additive chemicals required for chlorine residual and dissolved oxygen test kits.
- Ability to drive a corporate vehicle throughout the Metro Vancouver area to sample stations, to modify routes and sampling areas to accommodate temporary changes to the work of the unit, and to follow routes and schedules and to perform routine maintenance of the vehicle.
- Ability to walk over distances, to lift and carry cases of bottles, to exert sufficient physical effort to remove and replace obstructions to sample points and to check turbidity buoy probes, to exercise agility to collect water samples, and to perform these activities in all weather conditions.
- Ability to maintain records and to follow aseptic procedures for the collection of water samples.
- Ability to adhere to schedules and procedures, to deliver samples on time, to prepare bottles, work sheets and other related items for collection trips, and to maintain cleanliness and orderliness of laboratory and field equipment related to the work.
- Good mechanical aptitude and manual dexterity.
- Skill in the operation of a light vehicle and in driving in all weather, on any road surface and in variable traffic conditions.
- Driver's Licence for the Province of British Columbia.

Our Vision:

Metro Vancouver embraces collaboration and innovation in providing sustainable regional services that contribute to a livable and resilient region and a healthy natural environment for current and future generations.

Metro Vancouver employees proudly serve the region and demonstrate the behaviours and attributes of six leadership competencies: Accountability, Adaptability, Building and Nurturing Relationships, Communication, Continuous Learning, and Strategic Thinking and Action.

At Metro Vancouver, we are committed to cultivating a diverse, safe, equitable, and inclusive work environment for all. We strive to attract and retain a talented, diverse workforce that is reflective of the region we serve. If an accommodation is required during the recruitment and selection process, please contact careers@metrovancover.org for support.
